● Webinar Agenda

- Introduction to SAP Web IDE
- End-to-End Application lifecycle
- Demo
- Connected technologies
- Summary and useful links

- **SAP Web IDE**
 - Web-based integrated development environment
 - Runs on HANA Cloud Platform

- **SAP Web IDE – use cases**
 - Develop new SAP Fiori and SAPUI5 Apps
 - Extend SAP Fiori apps
 - Develop SAPUI5 mobile hybrid applications
 - Extend SAP Web IDE with new plug-ins and templates

- **SAP Web IDE - key benefits**

- Offers code templates and SAP Best Practices to build applications **rapidly**
- Enables developers to create apps **fast** with integrated preview and deployment functionality
- Reduces **costs** and **effort** through cloud-based offering
- **No installation** effort is required

BENEFITS

● SAP Web IDE – key trends

- By 2020 at least 70 % of new app development will happen on cloud
- Developers collaborate more over cloud based infrastructures
- Business users need to be enabled to create custom software apps that once required the assistance of professional programmers
